## Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influence or La Grippe. In an article in the "Lancet-Clinic," Dr. Jumes Bell of New York City says he is convinced that too much medication is both immecessary and injurious. When called to a case of is grippe, the patient is usually seen when the fever is present, as the chill which occusionally ushers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts, or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-Rammia tablet every three hours is quickly followed by complishe relief. Ask for A-K Tablets. They are also unexcelled for headache, neuralign and all pains.

# The Big Sale of Misses', Children's And Infants' Dainty Undermuslins

COTTON GOODS have never been so high since 1865," says a veteran of the textile industry, which includes everything made of cotton—Laces, Embroidery, Thread, etc. The scarcity of good Linens is also well known, as is the rise in price on all other yard goods. Against these seemingly insurmountable difficulties comes THIS SALE OF UNDERGARMENTS, which offers merchandise in many cases as low priced as last year for the same qualities. In almost every case, lower than similar could be priced for if bought at today's valuations.

It is a SALE OF UNDERGARMENTS that deserves the supreme confidence which the public places in "The Popular's" offerings.
